9145 Balboa Ave.
San Diego, Ca. 92123

Dear Ed,

Molex Premise Networks is pleased to approve the use of the Lantek 6 and Lantek 7 Cable Certifiers for use in field testing of our copper permanent links and channel solutions. Test results will be accepted under the Molex Premise Networks 25 year warranty program when performed by certified installers qualified by Molex Premise Networks. The Lantek Cable Certifiers must be operating with firmware revision 2.000.

Testing in our lab has confirmed that the Lantek 6 and 7 Cable Certifiers correlate well with an HP 8753ES network analyzer in testing category 6 links and channels. Our support of these cable certifiers is based on our favorable lab test results and independent verification provided by Intertek / ETL Semko.

Sincerely,

A handwritten signature in black ink that reads "Jim Roberts". The signature is written in a cursive, flowing style.

Jim Roberts
